DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1, 10, 13, 14 and 6 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 4, 2 and 6 respectively of U.S. Patent No. 6,457,614. Although the conflicting claims are not identical, they are not patentably distinct from each other because the newly presented claims are only slightly broader and the patented claims still encompass the newly presented claims.

3. Claims 1, 2, 3, 9, 4, 5, 6, 7, 8, 15, 12 and 16 rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 5, 12, 19, 21, 22, 23, 20 and 24 of U.S. Patent No. 6,626,426. Although the conflicting claims are not identical, they are not patentably distinct from each other because the newly presented claims are only slightly broader and the patented claims still encompass the newly presented claims.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3754

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 2, 3, 6 and 9-17 are rejected under 35 U.S.C. 102(b) as being anticipated by US 1,924,637 to Carpenter.

Carpenter shows a faucet as seen in Fig. 1, having a bore 12 with axially aligned inlet and outlet ports with a seat 19, as seen in Fig. 2, a plunger 40, as seen in Fig. 4, having a upstream end 41 and a downstream end 42 parallel to the fluid flow, a valve seal 37 with a flow modifying tip 36 and immersed in the fluid and a downward turning spigot 48.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kraft shows a beverage dispenser.
